**Summary Care Record (SCR)**

**What is the Summary Care Record?**

Summary Care Record (SCR) is an electronic record of important information about a patient’s health. The summary care record is uploaded from General Practice clinical systems subject to practice agreement and subject to a patient not opting out.

**What information is included in the Summary Care Record?**

It will initially have information about current medications, allergies and any adverse reactions to medication. Additional information may be added over time.

**You can choose whether you want your record uploaded from our clinical system onto the Summary Care Record by opting out.**

**Please indicate below:**

**I do/ do not wish for my patient information to be uploaded to the Summary Care Record.**
